Tec Note 24-21 PREMET® X Firmware Update

Introducing new functions and improvements, CMT has released the new firmware version 2.0 for the PREMET® X. Updating to the newest version requires little user action but some steps are necessary depending on your current version. Follow installation guide 1 for version 1.3 and guide 2 for version 1.4.

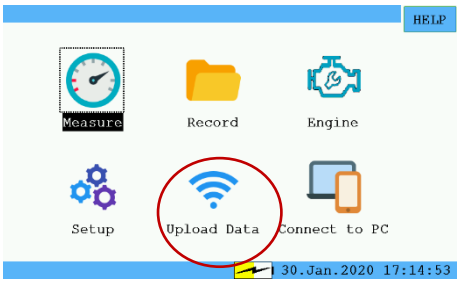
Guide 1 (Sw. ≥1.3) `Upload`

Guide 2 (Sw. 1.4) `Update`

1. Start the device and go to UPLOAD DATA

2. Connect to a Wi-Fi network and make sure an internet connection is available.

3. Press the UPLOAD or UPDATE button and wait for the procedure to finish.



4. The following messages should appear:

```
Message
Step 1/15
Received firmware part
Part 1
Step 2/15
Received firmware part
```

5. Press UPLOAD or UPDATE button again.

6. A prompt will show on the screen, press ENTER button to continue:

```
Message
Do you want to update
PREMET X?

ENTER/ESC
```

7. Wait for the update procedure to complete.
   Follow the messages on the screen.

8. To complete the update the device needs to be restarted.

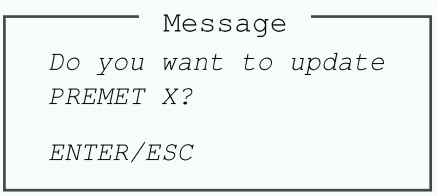
Guide 1 (Sw. ≥1.3)

Guide 2 (Sw. 1.4)

9. After the device has restarted, open the Upload data screen again. Below message will confirm that the update has been successful.

Since the new firmware is downloaded in small packages it is normal, that you have to do step 3-8 a few times until the complete software has been downloaded.

10. Press UPLOAD or UPDATE again to apply new firmware.



11. An update prompt will show on the screen, press ENTER button to continue:

12. The following messages should appear:

13. Once the download has been finished restart the device one last time.

14. Your PREMET X is now fully updated.
